Subject Index

Abdominal Pain
  Prevalence and relation to *Heliobacter pylori* 830
ABO—Alloimmunization
  Screening in neonatal hyperbilirubinaemia 1269
Absorption
  Of nutrients in malnutrition 143
Adenectomoid
  And day care attendance rates 1003
Adenosine Deaminase
  Activity in PEM 1116
Adenovirus Infection
  Lymphocyte subsets and cytokines 933
Adhesion
  Inhibitory activity of β-lactoglobulin 491
Adrenal Hyperplasia–Congenital
Molecular genetics of 21-hydroxylase deficiency 159
Adrenomedullin
In birth stress 93
In perinatal adaptation 235
Alfa-1-Antitrypsin Deficiency
  Environmental and clinical factors and lung function 1120
Amblyopia
  Evaluation of screening in Sweden 1173
Amino Acids in Plasma
  In MSUD 1245
Andersen's Syndrome
  Relief by terbutaline 475
Antenatal Diagnosis
Maternal distress in screening for heart malformations 201
Antiphospholipid Syndrome
  With nephropathy and hypertension 903
Arachidonic Acid
  Metabolites in CSF in hypoxic encephalopathy of newborn 588
Asthma
  Fatty acids in milk from atopic mothers 729
  Peak expiratory flow rate on methalcholine inhalation 635
  Training for use of turbuhaler 842
  Atopic Disease
  And essential fatty acids in human milk 719
  With thyroid autoimmunity 371
Atrial Fibrillation
  In newborn with pulmonary lymphangiectasiae 1304

Bacterial Colonization
  Preoperative of upper airways 375
BCG—Vaccination
  Dissemination in hyperimmunoglobulin E syndrome 702
  Influence of EMLA application 480
Biotin Deficiency
  Intractable diaper dermatitis 228
Biotinidase Deficiency
  Incidence in Turkish newborns 1102
Birth Stress
Increased adrenomedullin 93, 235
Blood Flow
  Over the foot with contralateral warming 416
Body Fatness
  And serum lipids in Chinese children 363

Bone Development
  Influence of weight, age and puberty 494
  In Turner syndrome 1146
Bone Marrow Transplantation
  Followed by liver disease 579
Bone Mineral Density
  Determinants in prematurely born 650
  In phenylketonuria under treatment 1162
  In preterm infants at 6–7 years of age 159
  Measured and predicted at 6–18 years 244
Brain Damage
  In hormone insufficiency 528
  Prenatal damage with hormone insufficiency 528
Breast Feeding
  And neurological outcome 1224
  And parental smoking 1023
  And passive smoking at 3 months of age 1028
  Catch-up growth in SGA infants. Letters and replies 115a, 115b, 354, 355a, 355b.
  Immune responsiveness 19
    Measuring prevalence 479
    Vitamin D status in Pakistani infants 737
    Vitamin D status 726
Breast Milk
  Fatty acid composition and atopic disease 719
  Fatty acid in milk from atopic mothers 729
  Occurrence of ochratoxin A 1275
  Vitamin K content and effect of maternal supplementation 960

Cancer
Changes in protein turnover and IGF-1 54
Somatic concern in young surviving women 169
Candidiasis Systemic
  Serial chitotriosidase activity in newborns 606
Cardiopulmonary Bypass
  Renal blood flow velocity and renal failure 644
Cellular Immunity
  In children with herpes zoster 692
Cerebral Haemodynamics
  Following treatment with surfactants 411
Cerebral Palsy
  Age at diagnosis. Letter 814
Child Health Services
  Utilization during the first 18 months 996
Role of parental stress and psychosocial problems 69
Chlamydia Infection
Pneumonia and acute respiratory infection 23
Relation to pneumonia. Letter and reply 1016
Cholestasis
Essential fatty acid metabolism 278
Chylothorax
  Congenital in siblings 1010
Clinical Pathological Conference
  Child with recurrent infections 1097
Clinical Risk Index Score
  In performance in neonatal intensive care unit 134, 195
Clinical Pathological Conference
  Bruising 908

Coeliac Disease
Expression of VLA family of integrins 1125
Colchicine
In recurrent pericarditis 604
Collagen. Type I
Plasma levels of procollagen in healthy school children 825
Congenital Heart Disease
In Estonian school children 37
Long-term growth 1250
Plasma levels of NO products and endothelin in pulmonary hypertension 715
Psychological outcome after surgery for TGA 405
Renal impairment 949
Constipation
Intestinal ecosystem 836
Convulsions—Febrile
Incidence in congenital hypothyroidism 623
Coronary Risk Factors
Effects of endurance training 401
Corticosteroids
Influence on growth when inhaled 123
CPAP
Discontinuation in stable preterm infants 82
Open lung biopsy as diagnostic tool 945
Cyclic Vomiting
Precipitants and aetiology 272
Cystic Fibrosis
Assessement of pulmonary exacerbations 1013
Children born to single mothers 397
Effect of proton-pump inhibitor 553
Cystourethrogram
Preparation for distress 175
Cytokines
In adenoviral infection 933

Day Care
Attendance rates and adenectomies and tympanostomies 1003
Development
After treatment for trichuris dysentery syndrome 1247
Dual energy X-ray absorptiometry for skeletal maturation 924
Diabetes—Gestational
Erythrocyte indicators of oxidative stress 676
Metabolic alterations in the newborn. Letter 711
Diabetes—Insulin-dependent
Association of poor adherence with low familial adaptability 741
Ketoacidosis in newly diagnosed and established IDD 537
Metabolic control 5 years after diagnosis and risk factors 857
Transient focal neurologic deficits and hypoglycaemia 542
Urinary growth hormone excretion in postmenarcheal girls 149
Diabetes of Infancy
Faces in non-autoimmune 95
Diabetes—Maturity onset
Missence mutation in glucokinase gene 853
Diaper Dermatitis
Intractable in biotin deficiency 228
Diarrhoea—Acute
Community-based survey of morbidity and home treatment 986
Non-specific and iatrogenic 268
Pathogens and nutritional status in Bangladesh 264
Treatment with folic acid 1113
Diarrhoea—Persistent
Impact on Zn supplementation 1235
Digoxin-like Immunoreactive Factor
In serum and relation to sodium homeostasis 500
Doppler Ultrasonography
In ischaemic encephalopathy in newborns 680
Drug Prescription
For children in general practice 218
In general practice 489

Ehler–Danlos Syndrome
Diagnosis and management in TypeVI 708
Enuresis
Genetics of nocturnal enuresis. Commentary 487
Molecular genetics 571
Environmental Health Hazards
Chlorinated contaminants, growth and thyroid function 991
Epstein-Barr Virus
Role for expanding pattern of human diseases. Review 11
Essential Fatty Acids
Metabolism in cholestasis 278
Extubation
Radiological chest changes in newborns 88
Trial of doxopram in VLBW infants 191

Fat Enriched Diet
Absorption of nutrients in malnutrition 143
Fatty Acids
In human milk and atopic disease 719
Role of LCPUFA in neonatal nutrition 1017
Fatty Acid Balance
In term infants fed a LCP fortified formula 136
Fechtner Syndrome
In a Chinese adolescent girl 705
FISH Analysis
In Williams' syndrome 48
Fluid Balance
Transepidermal water loss in ELBW infants 1185
Folic Acid
In treatment of acute watery diarrhoea 1113

Gallbladder
Ultrasonography of volume and contractibility in neonates 799
Gastric Perforation
By gastronomy button 1203
Gastroesophageal Reflux
Case history and cause. Viewpoint article 1219
Colour Doppler ultrasonography 229
Evaluation by Doppler ultrasonography 229
Gastronomy Button
Causing perforation of gastric wall 1203
Glucose Homeostasis
In GH deficiency during fasting 505
Glucose-6-phosphate Dehydrogenase Deficiency
Neonatal hyperbilirubinaemia and ABO incompatibility 455
Glycogen Storage Disease
Prevention of hypoglycaemia by amylase inhibitor 595

Glycoprotein Syndrome
Failure of mannose treatment in type I CHO-deficient syndrome 884
Gonadotropin-Releasing Hormone
Adult height and GRH treatment in precocious puberty 521
Growth
After treatment for trichuris dysentery syndrome 1247
Bone mineral content 244
In nephrotic children treated with prednisolone 545
Influence of breastfeeding and weaning on growth at 5–10 months 911
Influence of inhaled corticosteroids 123
Influence of weight, age and puberty in bone development 494
Long-term in congenital heart disease 1250
Risk factors for impaired length growth in early life 237
Growth Factors
IGF-1 and IGFBP in children with cancer 54
Growth Hormone Deficiency
Glucose homeostasis during fasting 505
Intracranial hypertension as complication of GH treatment 381
Urinary excretion in IDDM 149
Growth Hormone Treatment
Compliance 387
In idiopathic short stature 865
In SGA children with short stature 511
Of short children born SGA 257
One or two daily injections in idiopathic short stature 518
Psychological response to needle-free injection pen 154
Gynaecological Services
For children and adolescents 805

Helicobacter pylori
In children. Review Article 1105
Relation to recurrent abdominal pain 830
Haemangioma
Hepatic causing hydrops fetalis 1307
Haemochromatosis
In a newborn infant 102
Haemolytic–Uraemic Syndrome
Genotype of E. coli and neurological complications 593
Haemophagocytic Syndrome
Enterovirus associated in a neonate 469
Haemophilia
Port-A-Cath usage 1051
Hepatitis A
Vertical transmission of virus 1008
Hepatitis B
Immunogenicity of hepatitis B vaccination in newborns 336
Immunogenicity of vaccine. Letter 1100
Vaccination in preterm infants. Letter and reply 1100a, 1100b.
Herpes Zoster
Cellular immunity in immuno-competent children 692
High Density Lipoprotein
Subclasses and cholesterol esterification in children 918
Histiocytosis
Multisystem with endocrinological defects 112
Thrombocytosis as indicator 1085
HIV/AIDS
Birthweight and survival in children of infected women 816
Body mass index during first 6 months 378
Knowledge and attitudes regarding infected children 713
Prevention by Zidiondin. Letter 1208
Protease inhibitors in antiviral therapy 814
Routine vaccinations in the children of infected mothers 458
Hormone Insufficiency
In prenatal midline brain lesions 528
Hydrocephalus
CSF shunt infection 667
Prevalence 392
Hydrops Fetalis
Caused by hepatic haemangioma 1307
In preterm with parvovirus infection 1088
Hyperimmunoglobulin E Syndrome
With disseminated BCG infection 702
Hyperinsulinaemia
In non-intolerant grossly obese adolescents 1045
Hyperphenylalaninaemia
R252W/E178G phenylalanine hydroxylase genotype in Romania 1103
Hypocalaemic Paralysis
Relief by terbutaline. Case Report 475
Hypoglycaemia
Prevention in glycogen storage disease 595
Hypothyroidism
Febrile convulsions in CH 623
In multisystem Langerhans cell histiocytosis 112

IGF-1
And IGF binding protein in children with cancer 54
Illness by Proxy
Presenting as anorexia and polydipsia 601
Immune Responsiveness
In breastfed infants 19
Immunoglobulins
G3 levels in wheezy children 368
Placental transfer and high avidity IgG antibodies 180
Placental transfer of IgG antibodies 180
Infant and Childhood Feeding
Early childhood feeding practices in Italy 250
Fatty acid balance in preterm infants given extra PUFA 318
Influence on growth at 5–10 months 911
Weaning food causing iron and zinc deficiency 618
Infant Formula
Adhesion inhibitory activity 491
Infections. Recurrent
Clinical pathological conference 1097
Ingestion Hazard
Toys in chocolate eggs 478
Injection Pen
Psychological response when needle-free 154
Injuries
To preschool children. Patterns and related products 206
Integrins
Expression of VLA family in coeliac mucosa 1125
Interleukin 6
CSF levels in SIDS 819
Intracranial Hypertension
Complication of recombinant GH treatment 381
Intrahepatic porto-venous shunts
Clinical features and outcome 631
Intrauterine Growth Retardation
Treatment with recombinant HGH in children with short stature 511

Kangaroo Care
Controlled trial 976
Impact in Mozambique 433
Implementation in low birthweight infants 440
With ventilated preterm infants 711
Kawasaki Disease
Mediastinal lymphadenopathy 1200
Risk factors for giant aneurysm 32
Knowledge and Attitudes
Regarding HIV/AIDS in children 713

Language Disorders
Handicaps. Invited Commentary 1213
In preschool children born at risk 1288
Leukaemia
Pathogenesis of testicular relapses 638
Treatment and prognosis in ALL in Nordic Countries 1981–96 1151
Leukaemia Megakaryocytic
Bone marrow fibrosis and radiological bone changes 1093
Leukomalacia
Revealed by MR 879
Lipids in Serum
And dietary fibre and exercise 1230
Relationship in serum to apolipoprotein E phenotypes 460
Liver Disease
Following bone marrow transplantation 579
Long Chain Polyunsaturated Fatty Acids
Fatty acid balance in term infants fed LCP fortified formula 136
In formula to preterm infants 318
Lung Biopsy
Diagnostic tool in critical illness 945
Lupus Erythematosus
Term neonatal without skin or cardiac manifestations 105
Lymphangioma
Pulmonary in a newborn with atrial fibrillation 1304
Lymphocytes
Subsets in adenoviral infection 933

Malnutrition
Nutrient absorption from fat enriched diet 143
Persistent diarrhoea and Zn supplementation 1235
Maple Syrup Urine Disease
Diurnal changes of plasma amino acids 1245
Maternal Distress
In antenal screening for heart malformations 201
McCune–Albright Syndrome
Optic neuropathy 599
Menkes' Disease
Lethal neonatal with vasculopathy and fractures 1297
Mental Retardation
Prevalence and subclassification in Norway 291
Mesangial Sclerosis
Congenital anomalies and placental enlargement 1301
Methaemoglobin
Function of the use of EMLA cream in newborns 1191
Methotrexate Treatment
Intrathecal overdose. Letter and reply 116, 117
Microecology
Intestinal in constipation 836
Molybdenum Co-factor Deficiency
Blood uric acid for diagnosis. Letter 714
Mycotoxin
Ochratoxin A in human milk 1275

Necrotizing Enterocolitis
Early detection by GI tonometry 344
Neonatal Intensive Care
Clinical risk index score in performance 195
Neonatal severity index 134
Neurobiologic risk score and outcome at 18 months treatment 751
Orders of withdrawal of therapy 769
Septicemia 1066
Speech development in treated children 654
Neonatal Mortality
Lack of precision in death classification 1167
Nephrotic Syndrome
Growth during repeated treatment with prednisolone 545
Neurobiologic Risk Score
And outcome at 18 months after NICU treatment 751
Neutropenia
Idiopathic in VLBW infants 963
Neurological Dysfunction
Maturation at late age in girls 117
Neurological Outcome
Influence of breastfeeding 1224
Newborn. Aspiration
Decidual tissue causing tracheal obstruction 100
Newborn—Behaviour
Role of olfaction 6
Newborn Birthweight
Correlation to insulin and C-peptide levels in cord blood 1101
Risk factors for low birthweight 304
Newborn Brain Damage
Arachidonic acid metabolites in CSF 588
Newborn Circulation
Umbilical arterial catheters and intestinal blood supply 955
Newborn—Hyperbilirubinaemia
In G6PD deficiency and ABO incompatibility 455
Screening for ABO alloimmunization 1269
Newborn Hypoxia
Arachidonic acid metabolites in CSF 588
Cord plasma lactate and pyruvate in high-risk neonates 764
Doppler ultrasonography in ischaemic encephalopathy 680
Free iron release in erythrocytes 77
Newborn—Infections
Serial chitotriosidase in systemic candidiasis 606
Newborn—Ischaemic Encephalopathy
Changes in Doppler ultrasonography 680
Newborn—Jaundice
Phototherapy and serum malondialdehyde 606
Newborn—Meconium Aspiration
Role of endothelin-1 and ANP in pulmonary hypertension 424
Newborn Nutrition
Hunger behaviour and nutritional homeostasis 671
Role of LCPUFA 1017
Newborn—Pharmacology
Flamazenil therapy reverses maternal diazepan 225
Newborn—Physiology
Adrenomedullin in birth stress 93

Adrenomedullin in perinatal adaptation 235
Capillary refilling time 310
Insulin and C-peptide levels in cord blood 1101
Pulmonary vascular tension and blood flow 357
Newborn—Pathology
Neonatal illness—Severity 134
Toxic shock syndrome 699
Newborn—Physiology
Gallblader volume and contractibility by ultrasonography 799
Pulmonary blood flow assessed by Doppler echocardiography 419
Newborn—Respiratory Distress
Infant flow driver versus CPAP 325
One-year prospective Italian study 1261
Newborn—Septicaemia
In a NICU 1066
Control of β-lactam resistant *Enterobacter cloacae* strain 1070
Newborn—Toxicology
Function of methaemoglobin by EMLA cream 1191
Newborn—Treatment
Alleviation of pain of venepuncture 774
Clinical risk index score in NICU 195
Local honey for postoperative wound infection 429
Post-extubation radiological changes of the chest 88
Newborn—Vaccination
Immunogenicity of hepatitis B vaccine 336
Nutritional Status
And diarrhoeal pathogenes in Bangladesh 627
Usefulness of short-term urine collection 339

Obesity
Adult consequences. Review Article 1
Insulin secretion and hepatic insulin clearance 1045
Ocular Disorders
Evaluation of screening in Sweden 1173
Olfaction
Role for neonatal behaviour 6
Oncology
Protein turnover, IGF-1 and IGFBP in children with cancer 54
Ontogeny
Potassium homeostasis 609
Ornithine Transcarbamylase Deficiency
Lethal in female neonate. Letter 227
Osteocalcin
Diurnal rhythm of serum level 930
Osteogenesis Imperfecta
Collagen-derived markers 1131
Treatment with bisphosphonate 64
Oxidative Stress
Erythrocyte indicators in gestational diabetes 676

Pain—Neonatal
Alleviation in newborns 774
Brain program and response to future stimuli 723
Parvovirus Infection
Preterm infant with hydrops 1088
Peak Expiratory Flow Rate
Following methacholine inhalation for diagnosis of asthma 635
Paediatric Intensive Care Units
No resuscitation orders and therapy withdrawal 721
Pelvic Ultrasonography
In girls with pubertal precocity 1138
Pericarditis
Use of colchicine 604
Perinatal Medicine
Fetal tachycardia treated with sotalol 584
Phenylketonuria
Bone mineral status 1162
Decreased trabencular bone mineral density 61
Factors affecting psycho-neurological development 565
Photooxidation
Of IgG antibodies 180
Phototherapy
Effect on cerebral blood flow velocity in preterm infants 786
No oxidative stress 606
Serum malondialdehyde 606
Placenta
Enlargement in mesangial sclerosis 1301
Transfer of antibodies 180
Plasminogen Activator
In intracardiac thrombi in preterm infants 695
Pneumonia
Due to chlamydia 23
From chlamydia infection. Letter and reply 1016a, 1016b.
Pneumonitis
Hypersensitivity caused by cat hair 811
Pneumopericardium
In a preterm infant without mechanical ventilation 344
Polyarteritis Nodosa
Cutaneous 351
Potassium Homeostasis
Ontogenic aspects 609
Prader Willi Syndrome
Linear growth and body composition following GH treatment 28
Precocious Puberty
Adult height after treatment with GRH analogue 521
Efficacy of subcutaneous triptocelin depot 1240
Pelvic ultrasonography 1138
Prenatal Damage
And midline brain lesions 528
With hormone insufficiency 528
Preterm Infants—Apnea
Treatment with doxapram 1180
Preterm Infants—Attitudes
Among physicians to extreme preterms 896
Preterm Infants—Care
Implementation of kangaroo mother care 440
Kangaroo mothers 976
Preterm Infants—Calcium Homeostasis
Dexamethasone therapy and bone growth 1061
Preterm Infants—Cerebral Blood Flow
Effect of phototherapy 786
Preterm Infants—Chronic Lung Disease
And hypothalamic-pituitary-adrenal axis 313
Inhaled corticosteroid therapy for prevention 792
Preterm Infants—Colonization
Of ureaplasma urealyticum 1075
Preterm Infants—Complications
Coma from transdermal absorption of propylene glycol 1195

Preterm Infants—Endocrinology
Hypothalamic-pituitary-adrenal axis and clinical course 313
Thyroid hormone concentrations when born to preeclamptic mothers 186
Preterm Infants—Follow-up
Neurosensory outcome and growth of ELBW infants at 3 years 1055
Preterm Infants—Growth
Bone mineral density at 6–7 years of age 159
Preterm Infants—Infections
Cerebral candidiasis 1090
Ureaplasma urealyticum and respiratory morbidity 1079
Preterm Infants—Neurology
General movements in periventricular echodensities 328
General movements in periventricular echodensities. Invited Commentary 233
Preterm Infants—Nutrition
Fatty acid balance and formula with PUFA 318
Nutrient fortification, growth and body composition 780
Nutritional monitoring and short-term urine collection for 339
Zinc deficiency 685
Preterm Infants—Outcome
Late death of VLBW infants 809
Morbidity and neurological function up to 4 years in VLBW infants 758
Of VLBW infants in a subarctic population 360, 446

Preterm Infants—Pathology
Idiopathic neutropenia in VLBW infants 963
Predicting intracranial haemorrhage by artificial neural network 969
Impact of Kangaroo mother care in Mozambique 433
Tension pneumopericardium without mechanical ventilation 346
With hydrops and parvovirus infection 1088
Preterm Infants—Physiology
Transepidermal water loss in ELBW infants 1185
Preterm Infants—Plasminogen
Activator in intracardiac thrombi 695
Preterm Infants—Prognosis
Prevalence of infantile hydrocephalus 392
Preterm Infants—Respiratory Distress
Dexamethasone therapy and calcium homeostasis 1061
Preterm Infants—Treatment
Discontinuation of nasal-CPAP 82
Trial of doxopram for extubation in VLBW infants 191
Use of tissue plasminogen activator in intracardiac thrombi 695
Preterm Infants—Ventilation
Airway pressure triggered and airflow triggered ventilation 1256
With Kangaroo care. Letter 711
Prone Position
Temperature around head 1005
Protein Energy Malnutrition
Adenosine deaminase activity 1116
Protein Turnover
In children with cancer 54
Pseudohypoaldosteronism
With symptoms as in cystic fibrosis 472
Pseudotumour Cerebri
Complicating varicellae 1310

Psychological Response
To needle-free injection pen 154
Pulmonary Blood Flow
In newborns assessed by Doppler echocardiography 419
Pulmonary Hypertension
NO and endothelin levels in congenital heart disease 715

Red Cell Aplasia
Transient in siblings 43
Regurgitation
Dietary treatment. Review from working party 462
Renal Failure
In cyanotic congenital heart disease 949
Renal blood flow velocity following cardiopulmonary bypass 644
Respiratory Symptoms
Outcome of non-asthmatic respiratory symptoms 165
Respiratory Tract Infection
Chlamydia pneumonia 23
Resuscitation of Neonatal Hypoxia
Cerebral excitatory amino acids and Na^+, K^+ ATPase activity 889
Rotavirus Infection
Rotaviral antibodies during treatment 264

Sarcoidosis
In children 871
Schönlein-Henoch Purpura
Erythrocyte superoxide dismutase and plasma malondialdehyde 848
Screening
For amblyopia and ocular disorders 1173
Serum Lipids
And body fatness in Chinese children 363
Sexual Abuse
Invited Commentary 130
Horizontal transmission of sexual disease 1214
Sexually Transmissible Infections
Horizontally propagated among children 1295
Sexual Victimization
In adolescent girls 212
Short Stature
GH treatment in children born SGA 257
One or two daily GH injections 518
Quality of life after GH treatment 865
Treatment with recombinant HGH in SGA infants 511
Views on GH treatment 485

Skeletal Maturation
Assessement by dual X-ray absorptiometry 924
Small for Gestational Age Infants
GH treatment in short children 257
Smoking
Passive and active in alfa-1-antitrypsin defect 1120
Smoking—Parental
And breastfeeding 1023
